

## TOGAF® Business Architecture Foundation

---

TOGAF Business Architecture Foundation provides validation that an individual has the basic knowledge and understanding of the TOGAF Business Architecture concepts and techniques.

The learning objectives at this level focus on knowledge and comprehension.

### Competencies

---

Individuals certified will have the following competencies:

- Knowledge of how to develop and maintain a TOGAF Business Architecture
- Understanding of how to use TOGAF Business Architecture techniques to support organizational changes in a controlled way
- The ability to apply TOGAF Business Architecture Techniques

### Target Audience

---

- Individuals such as those responsible for business planning, who wish to apply the TOGAF Business Architecture approach in their working environment
- Individuals who need to gain competencies in TOGAF Business Architecture techniques
- Individuals who wish to become qualified as part of their own professional development

### The Value of this Certification

---

Individuals certified will have demonstrated their understanding of:

- The concepts of Enterprise Architecture and the TOGAF Standard
- The key terminology of the TOGAF Standard
- An introduction to the Architecture Development Method (ADM) cycle
- The topic of Business Modeling and how it relates to Enterprise Architecture within a TOGAF context
- The concept of Business Capabilities and how they can be modeled
- Value Streams and value stream mapping
- Information Mapping
- Organization Mapping
- How to apply the TOGAF Business Scenario method
- How to apply Business Architecture techniques within the TOGAF Architecture Development Method (ADM)

## Prerequisites

---

Certification is open to all applicants – there is no requirement for any previous certification.

## Study Track

---

Candidates may choose how they wish to study for this certification, including training course attendance or by self-study. Courses will be available from The Open Group Accredited Training Course Providers.

## Certification

---

The Open Group publishes the definitive directory of certified individuals, and issues certificates and Open Badges.

The duration of certification is indefinite – certification is to a given version of the Body of Knowledge and does not expire, so there are no re-certification or renewal requirements.

## Migration

---

Individuals with the TOGAF Business Architecture Level 1 certification credential can take a short refresher course to update to this qualification.

## Next Steps

---

Candidates may choose to:

- Study for the TOGAF® Digital Specialist certification credential
- Study for the TOGAF® Agile Specialist certification credential
- Earn TOGAF Role-Based Badges to demonstrate complementary knowledge and skills
