

## TOGAF® Enterprise Architecture Practitioner

---

The TOGAF Enterprise Architecture Practitioner certification provides validation that an individual has the knowledge, comprehension, and ability to analyze and apply the TOGAF Standard to developing, sustaining, and using an Enterprise Architecture.

The learning objectives at this level focus on application and analysis in addition to knowledge and comprehension.

### Competencies

---

Certified individuals will have the following competencies:

- Know how to apply the TOGAF approach to transform and manage change
- Know how to apply the TOGAF method
- Know how to apply TOGAF techniques

### Target Audience

---

- Individuals expected to apply the TOGAF approach to develop, sustain, and transform domain architectures
- Individuals actively contributing to organizational transformation
- Individuals working in Agile environments who need to understand and apply Enterprise Architecture using the TOGAF Standard
- Individuals who wish to become qualified as part of their professional development

### The Value of this Certification

---

Certified individuals will have demonstrated their understanding of:

- The context within which an Enterprise Architecture practitioner must operate
- How to apply the stakeholder management technique
- How to implement the Architecture Vision phase including its applicable techniques
- How to implement the Architecture Development Method (ADM) Phases B, C, and D to develop an architecture, together with the applicable techniques
- How to implement the ADM Phases E, F, and G to implement an architecture, together with the applicable techniques
- How to implement Architecture Change Management
- How to manage architecture requirements
- How to use The Open Group Library
- How to support the ADM work with applicable techniques
- Using architecture levels to organize the Architecture Landscape
- The Architecture Content Framework

## Learning Studies

---

Accredited Training Courses include the *TOGAF Enterprise Architecture Practitioner Learning Studies* as a mandatory element of the training. Candidates who become certified, who also satisfactorily complete these learning studies will in addition earn *The Open Group Certified: Applied TOGAF® Enterprise Architecture Practitioner Open Badge* to reflect their ability to analyze and apply Enterprise Architecture.

## Examination

---

Certification is only achieved by passing the two examinations, either taken separately or together as a combined examination.

Examination Name	TOGAF Enterprise Architecture Part 1 (Exempt if the Candidate has achieved certification for TOGAF® Enterprise Architecture Foundation)
Examination Type	Multiple-choice examination 40 questions/60 minutes
Pass Mark	24/40 (60%)
Supervised	YES
Open Book	NO
Delivery Options	At your home or in your office using Pearson VUE OnVUE delivery. Pearson VUE test centers.

Examination Name	TOGAF Enterprise Architecture Part 2
Examination Type	Complex multiple-choice scenario-based examination 8 questions/90 minutes
Pass Mark	24/40 (60%)
Supervised	YES
Open Book	YES
Delivery Options	At your home or in your office using Pearson VUE OnVUE delivery. Pearson VUE test centers.

## Prerequisites

---

There are no prerequisites for this certification for candidates taking the two examinations or the Combined Part 1 and Part 2 examination.

If a candidate has achieved certification for TOGAF® Enterprise Architecture Foundation or passed the Part 1 section of the Combined Part 1 and Part 2 examination, then they need only take the TOGAF Enterprise Architecture Part 2 examination.

Candidates who have achieved the TOGAF 9 Certified qualification can achieve certification via the bridge learning path (see the separate datasheet for more information).

## Study Track

---

Candidates may choose how they wish to study for this certification, including training course attendance or by self-study. Courses will be available from The Open Group Accredited Training Course Providers.

## Certification

---

The Open Group publishes the definitive directory of certified individuals, and issues certificates and Open Badges.

The duration of certification is indefinite – certification is to a given version of the Body of Knowledge and does not expire, so there are no re-certification or renewal requirements.

## Next Steps

---

Candidates may choose to:

- Study for Open Agile Architecture™ Practitioner certification
- Study for the TOGAF® Digital Specialist certification credential
- Study for the TOGAF® Agile Specialist certification credential
- Earn TOGAF Role-Based Badges to demonstrate complementary knowledge and skills
